

My experience with using Advantage Inspection Peachtree and Gary Sloan has been wonderful. He has inspected 3 homes for me. The second home that he inspected, I was very excited about purchasing, and he provided detailed information about the home's failing foundation. Gary's knowledge and experience protected my family from nearly making a very costly mistake. He took the time to carefully explain to me each issue and was very eager to answer any questions I had. Each time I received the printed reports, I was quite impressed at his thoroughness and detail. For all my future home purchases I know that I have someone to contact who will look out for my best interest. I could not ask for better service! Highly recommended.

Advantage Inspections provided a very thorough and professional service. Their Inspector was prompt, courteous, and very knowledgeable. The report was received earlier than promised and was easy to read and understand. I highly recommend their service to anyone who is looking for an inspection company that provides excellent customer service at a great value.

Gary Sloan has been the Home Inspector of choice for my clients and family since 2004. I give him an A+ for competency, knowledge and courtesy. He is always on time and never in a hurry to finish the job. He is very patient with my first time home buyers explaining to them the working and maintenance of their new home. He is detail oriented and takes photos to document his findings. His reports are easy to access and read and very helpful with out of state clients who were unable to be present at inspection. My clients and I find Gary Sloan very knowledgeable and easy to work with.

As a real estate professional, it is so important to have other co-workers that I can depend on to assist my clients through the home buying process. Gary ALWAYS delivers a high level of customer service while being professional, courteous and dependable. I like to describe Gary's services to my clients as a "learning process" not just a home inspection. He guides them through what needs attention before the sale and what they can expect in the future.

I think Gary is the best and I would highly recommend him to anyone!

Real Estate Agent

This letter is in support of Gary Sloan Certified Home Inspector of Advantage Inspection. As a realtor I have worked with many home inspectors in the Atlanta area, and I found that there are a lot more people who practice this industry than the few that really know and practice their careers with cutting edge technology and with knowledge of changing ordinances and the latest in home improvement innovations, like Gary Sloan's Advantage Inspection team.

I started using Gary when I found out that Gary brings his expertise of safety and critical inspections knowledge from the airlines industry, and sure enough Gary's inspections of clients homes clearly advocates substance and honesty which truly is above and beyond workmanship!

Gary has clearly raised the bar when it comes to true caring and bonding partnerships he creates thru his knowledge of home inspections.

Coldwell Banker Bullard Realty

I have worked with Gary for many years under several capacities all with the same results: Professionalism. Gary provides confidence in referrals by providing customers with a timely, professional, organized and easy to follow home inspection. His knowledge of code and his ability to communicate complement his service. There is no other home inspector that exceeds my expectations on a consistent manner as Gary. It is always a pleasure to work with him.

Thanks Gary,

As a first time home buyer, I was very pleased with an inspector and house inspection. I had a chance to learn a lot about house maintenance, I got all my questions answered. I will definitely recommend to my friends.
